

# My impact as an ePAG advocate

ePAG advocates

Resource for Managing and Supporting Patient Partnership in the European Reference Networks (ERNs)

## 01 Purpose

Regularly capture and monitor the contributions and impact of patient representatives in ERN collaborative activities.

## 02 How to use it

This template enables the European Patient Advisory Group (ePAG) advocates to routinely record details of their participation in ERN projects and the impact of their involvement. It is recommended that the ERN Project Manager shares this template and explains how the information will be used to support the ERN monitoring system.

## 03 Why use it

The information compiled in these notebooks can be integrated into your ERN's annual reporting and/or monitoring system as evidence of patient involvement and the impact of their contributions.
