

Survey Design e-Toolkit & eLearning Course

Anyone involved in survey design or interested in developing survey design skills, especially in the context of patient/people-centred methods.

Resource for Implementing Patient Partnership in the European Reference Networks (ERNs)

01 Purpose

Support the design of effective surveys through a centralised resource hub that brings together various resources on survey design, including guides, videos, courses, and other actionable materials.

02 How to use it

The e-toolkit is organised into 8 steps, corresponding to the key phases of any survey. You can explore relevant resources for each stage while also gaining a methodological overview of survey design. The eLearning course, lasting 3-5 hours, focuses on developing the knowledge and skills needed to create effective surveys.

03 Why use it

To design impactful surveys that collect high-quality data and yield strong results.
